

❖ TAKE YOUR PICK ❖

In January, the Milking Shorthorn breed lost one of its biggest fans. Grandpa Maury loved cows of all colors, and the entire dairy industry was his "family," but the beautiful Red, White and Roan were his true love. He was a pioneer of the breed, and left us all a legacy of insight and forward thinking. Grandpa loved visiting the barn, and especially enjoyed participating in our classifications, barn tours and youth judging work outs. While it has been difficult to continue without his encouragement and enthusiasm, Grandpa would be amazed by the outpouring of love and support his family has received since his passing, and we are humbled to be a part of the Milking Shorthorn family.

In honor of Grandpa Maury's life-long love of the Milking Shorthorn cow and his contributions to the breed, we have consigned a "Pick of the Herd" to the 2011 National Sale. We are offering the opportunity to select an animal from the heart of our herd – milk, index and show winning type. The choice must be a female, and at least 50% Registered Milking Shorthorn (GE, GI2, EXP or Full Herd Book).
